LCAP UPDATE
DECEMBER 2018

ATTENDANCE  AMO 2.5

Our LCAP goal regarding attendance (AMO 2.5) is to maintain a minimum attendance of 94% for both the middle school and high school. Let’s celebrate our success meeting that goal for November and year to date. Let’s continue on the right track!

AMO 2.6 Chronic Absenteeism

Our LCAP goal under AMO 2.6 is to reduce the percentage of students who are chronically absent by 3% from the 2017-2018 school year. Here is where we stand:

- MS - 2017-18 - chronic absenteeism rate was 9.38% - Currently - 4.08% (4 students)
- HS - 2017-18 - chronic absenteeism rate was 7.36% - Currently - 4.70% (27 students)

As you can see, it doesn’t take very many students being chronically absent to increase our rates. Thank you in advance for checking in with your mentees if they are one of the students that appears on the chronically absent list. Making sure those students attend Saturday School will ensure that we are able to meet this goal!

CLIMATE

AMO 3.6 states that we will make every effort to reduce our suspension and expulsion rates from the prior year. Last year we had 8 suspensions and this year we have had 5 suspensions so far. Although we make every attempt to effectively use restorative practices and build meaningful relationships; that does not preclude our responsibility to effectively hold students accountable when serious infractions occur.
