

HSHMC

LCAP UPDATE

NOVEMBER 2018

ATTENDANCE AMO 2.5

Our LCAP goal is to maintain a minimum attendance of 94% for both the middle school and the high school. We have met that goal again in October, and we continue to meet our year to date goals as well! Great job everyone! Stats related to October's success. Stats related to that -
High School **96.39%** & Middle School **96.78%**

AMO 2.6 Chronic Absenteeism

Our LCAP goal for chronic absenteeism is to reduce that number by 3% from the previous year. So far we are on track toward achieving that goal as we have already seen a .25% and .50% reduction in the middle and high school respectively.

AMO's 1.2, 1.3 & 1.5, Maintaining a Fully Credentialed Staff

HSHMC continues to do an excellent job of ensuring that our staff has attained or is in pursuit of advanced degrees, LEC Certification, and BTSA completion for our newest teachers within their first 5 years of teaching. Stats that relate to that -

Degree attainment and pursuit	LEC Certification
HS- 84.20% - goal is 75%	HS- 73.6% - goal 75%
MS- 100% - goal is 60%	MS- 80% - goal is 50%

ACHIEVEMENT AMO 2.1 & 2.2, English and Math Proficiency

The SWAG lab continues to be a tremendous opportunity to create success for our students, and provide our teachers opportunities to re-teach lessons in their classes while providing advancement opportunities for those students who have passed competencies. The newly revamped academic intervention process has provided tremendous accountability for our students, as well as generating a source of consistent communication with families. Friday ARA has taken on a new model that focuses on students who need the most intervention, and our lunch tutorials have quickly become an accepted part of our school culture.

AMO 2.3, English Learners

Our 5th period classes continue to see an average daily attendance of 85%. The small group instruction continues to yield positive results and positive relationships with staff and students. We continue to be on track towards our goal of reclassifying 2% of our students one level over last years baselines.

CLIMATE

AMO 3.2, Increase Parent Attendance to HSHMC events We continue to have our families attend our school based events. Parents are taking advantage of college application and scholarship events, and we are continuing to plan new opportunities to ensure that we exceed our target of 40% or more of our families attending school based events.

AMO 3.3 & 3.5: Students feeling valued and welcomed

We continue to move through our Student Voice survey and bring back student feedback to our morning meetings. We will continue to explore these topics with our students, and as we bring back the information, we are filling in a t-shirt for the year that we will display as a reminder of this feedback and how we can use it to strengthen our relationships and opportunities for our students.
